Professional Summary

Enthusiastic and detail-oriented BCA graduate with strong knowledge of Python programming, SQL, Data Analytics, and Machine Learning. Experienced in developing real-world analytics projects, building predictive machine learning models, and creating data-driven solutions using Python. Familiar with Git, GitHub, VS Code, and PyCharm, with a solid foundation in software development and problem-solving. Seeking an entry-level Python Developer or Data Analyst position where I can contribute technical skills while continuing to grow in AI and Machine Learning.

Technical Skills

Target Roles:	Python Developer, Data Analyst, Machine Learning (ML) Engineer
Languages:	Python, SQL, C, Java, PHP
Data Science & ML:	Machine Learning, Data Analytics, Predictive Modeling, Exploratory Data Analysis (EDA)
Web & Database:	HTML5, CSS3, JavaScript, MySQL, SQLite, Responsive Design
Tools & Concepts:	Excel, MS Word, Git, GitHub, VS Code, PyCharm

Internship Experience

Web Development Intern 3.5 Months	Parth Enterprise, Amreli Web Development
- Developed features for an e-commerce grocery platform, including cart and order systems. - Translated business requirements into functional technical solutions.	
Machine Learning & Data Analytics Intern 3 Months	Unifide Menter Data Science
- Worked on real-world Machine Learning and Data Analytics projects. - Performed data cleaning, preprocessing, and exploratory data analysis using Python.	

Projects

Care Transition Efficiency & Placement Outcome Analytics Tech Stack: Python, Pandas, NumPy, Streamlit, Plotly, Scikit-learn, Random Forest Regression	Personal
Developed a Streamlit-based Healthcare Analytics dashboard to evaluate care transition efficiency, monitor backlog trends, visualize operational KPIs, and predict discharge outcomes using Machine Learning.	
Product Line Profitability & Margin Performance Analysis for Nassau Candy Distributor Tech Stack: Python, Pandas, NumPy, Streamlit, Plotly, Scikit-learn, Linear Regression	Personal
Built an interactive Machine Learning dashboard to evaluate product profitability, margin risk, division performance, Pareto (80/20) analysis, and business KPIs, enabling data-driven decision-making through predictive analytics.	
Online Grocery Shop (Parth Enterprise) Tech Stack: HTML, CSS, JavaScript, Python (Django), MySQL/SQLite	Personal
Built a wholesale e-commerce platform with product management and order processing capabilities.	
Blood Collection & Supply Management System Tech Stack: PHP, MySQL, HTML, CSS, JavaScript	Academic (2025)
Managed blood distribution logistics between banks and hospitals to ensure optimized supply chains.	

Education

Degree/Board	Institution	Year	Result
BCA (Computer App.)	Saurashtra University	2023–2026	6.35 CGPA
Class 12 (HSC)	Meghani High School (HSC)	2023	52%
Class 10 (SSC)	Meghani High School (SSC)	2021	49%

Personal Details: DOB: 08/01/2006 (Age: 20 Years) | **Languages:** English, Gujarati, Hindi
